

# Dental Wage Report- 2024

We compiled wage information based on primary job titles amongst clients using Gusto as their payroll service provider.

These numbers were compiled in February of 2024 and reflect staff wages from clients mostly based in Cincinnati / Northern Kentucky. We hope it provides some actual data as to what other practices in the area are paying and the current wages for different roles within a practice.

The average wage is calculated by taking all the individual pay rates for the role and dividing them by the number of individuals with that job title. The median wage is the middle value in which half of the pay rates are smaller and half are larger.

## OFFICE MANAGER
